

## Kidney School Module 2 Posttest

Use this printable version of the test to fill out as you review the modules.

1. Peritoneal dialysis utilizes \_\_\_\_\_ to filter out wastes and excess fluid.
  - a. residual renal function
  - b. intestinal absorption
  - c. blood vessels in the peritoneum
  - d. bladder diffusion
  
2. In non-diabetic kidney failure patients Medicare will pay for dialysis when the serum creatinine concentration is greater than \_\_\_\_\_.
  - a. 2.5
  - b. 8.0
  - c. 6.0
  - d. 4.0
  
3. Patients on continuous ambulatory peritoneal dialysis (CAPD) complete \_\_\_\_\_ dialysate exchanges per day.
  - a. 6 to 8
  - b. 1 to 2
  - c. 10 to 15
  - d. 3 to 5
  
4. In-center hemodialysis is typically done 3 days a week for \_\_\_\_\_ hours at a time.
  - a. 1 to 2
  - b. 2 to 3
  - c. 3 to 4
  - d. 5 to 6
  
5. Approximately how much blood is actually outside the body at any given time during dialysis?
  - a. 8 ounces
  - b. 16 ounces
  - c. 32 ounces
  - d. 64 ounces
  
6. The hemodialysis vascular access that uses a surgically connected vein and artery is called a:
  - a. graft
  - b. fistula
  - c. catheter
  - d. lumen

7. Home hemodialysis requires patients to dialyze everyday.
  - a. True
  - b. False
  
8. According to Dr. Tom Peters, a transplant surgeon from Florida, what percentage of patients do very well in the first year after a kidney transplant?
  - a. 25%
  - b. 50%
  - c. 60%
  - d. 80%
  
9. Immunosuppressant medications are given after a kidney transplant to:
  - a. prevent infection
  - b. reduce inflammation
  - c. prevent organ rejection
  - d. increase kidney function
  
10. The least prevalent method of dialysis is:
  - a. home hemodialysis
  - b. in-center hemodialysis
  - c. continuous ambulatory peritoneal dialysis
  - d. continuous cycling peritoneal dialysis

**Kidney School – Module #2  
Learner Evaluation Form**

To assist us in evaluating the effectiveness of the educational activity, please complete this evaluation form by circling the appropriate rating. To receive continuing education credit, this form must be completed and returned along with the post-test and CE Certificate of Participation.

General Evaluation:	Strongly Agree	5	4	3	2	1	Strongly Disagree
1. The teaching/learning resources were effective to complete this self-study	5	4	3	2	1		
2. The subject matter presented is relevant to my current practice	5	4	3	2	1		
3. The self-study format was effective	5	4	3	2	1		
Comments:							

Upon completion of this activity, I am able to:	Strongly Agree	5	4	3	2	1	Strongly Disagree
4. List the four treatment options for end-stage renal disease	5	4	3	2	1		
5. Describe the peritoneal dialysis process	5	4	3	2	1		
6. List the pro's and con's of the two types of peritoneal dialysis	5	4	3	2	1		
7. Describe the hemodialysis process	5	4	3	2	1		
8. Enumerate the pro's and con's of transplantation	5	4	3	2	1		
9. Identify possible sources of organ donation	5	4	3	2	1		
10. List 4 strategies for successful adjustment to chronic kidney disease	5	4	3	2	1		
Comments:							

**The following were disclosed in writing prior to, or at the start of, this education activity.**

- |   |     |    |
|---|-----|----|
| a. Requirements for successful completion   | Yes | No |
| b. Conflict of interest   | Yes | No |
| c. Relevant financial relationships and mechanism to identify & resolve conflicts of interest | Yes | No |
| d. Sponsorship or commercial support  | Yes | No |
| e. Non-endorsement of products  | Yes | No |
| f. Off-label use  | Yes | No |
| g. Expiration date for awarding contact hours   | Yes | No |

*Please refer to CE Credit information page on the Kidney School website.*

Did you, as a participant, notice any bias in the presented material that was not previously disclosed? Yes No

If yes, please describe the nature of the bias. \_\_\_\_\_
